(a) logistic regression
TF-IDF cosine (body)
TF-IDF cosine (description)
containment, distinctive lines
shingle containment
code identifier Jaccard
Jaccard, distinctive lines
name similarity
same name
heading-sequence similarity
same folder name
Jaccard, boilerplate lines
length ratio
bundled-file Jaccard
shingle Jaccard
edit similarity
both contain code
heading-count ratio
share of shared lines that are boilerplate
same owner
−0.5
0.0
0.5
coefficient for derived (standardised features)
(b) gradient boosting, held-out folds
boilerplate
lexical
